Flag 3 – Install VS Code & Flutter Extension

Objective: Install VS Code and the Flutter (which also installs Dart) extension.

Screenshot:

🚩 Flag 4 – Run Flutter Doctor (School PC)

Objective: Check whether everything is configured correctly.

Run:

```
flutter doctor
```

Screenshot:

```
MINGW64/c:/Users/student/Desktop/flutter
10.8 Open Source Software. In the event Open Source software is included with Evaluation Software, s
uch Open Source software is licensed pursuant to the applicable Open Source software license agreeme
nt identified in the Open Source software comments in the applicable source code file(s) and/or file
header as indicated in the Evaluation Software. Additional detail may be available (where applicabl
e) in the accompanying on-line documentation. With respect to the Open Source software, nothing in t
his Agreement limits any rights under, or grants rights that supersede, the terms of any applicable
Open Source software license agreement.

Accept? (y/N): y
All SDK package licenses accepted

student@PC-12 MINGW64 ~/Desktop/flutter (stable)
$ flutter doctor
Doctor summary (to see all details, run flutter doctor -v):
[✓] Flutter (Channel stable, 3.44.9, on Microsoft Windows [Version 10.0.26200.8875], locale en-US)
[✓] Windows Version (Windows 11 or higher, 25H2, 2009)
[✓] Android toolchain - develop for Android devices (Android SDK version 36.0.0)
[✓] Chrome - develop for the web
[✓] Visual Studio - develop Windows apps (Visual Studio Community 2026 18.3.1)
[✓] Connected device (3 available)
[✓] Network resources

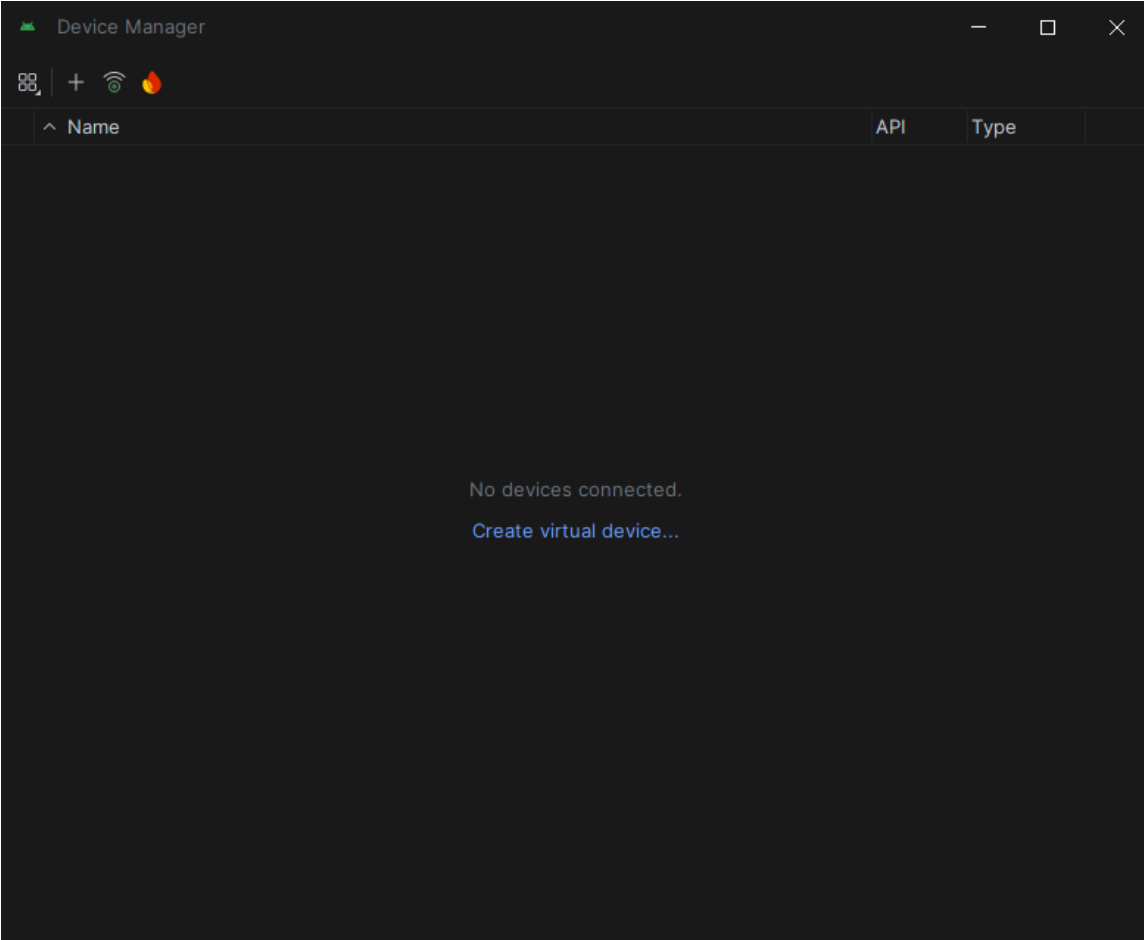

• No issues found!

student@PC-12 MINGW64 ~/Desktop/flutter (stable)
$
```

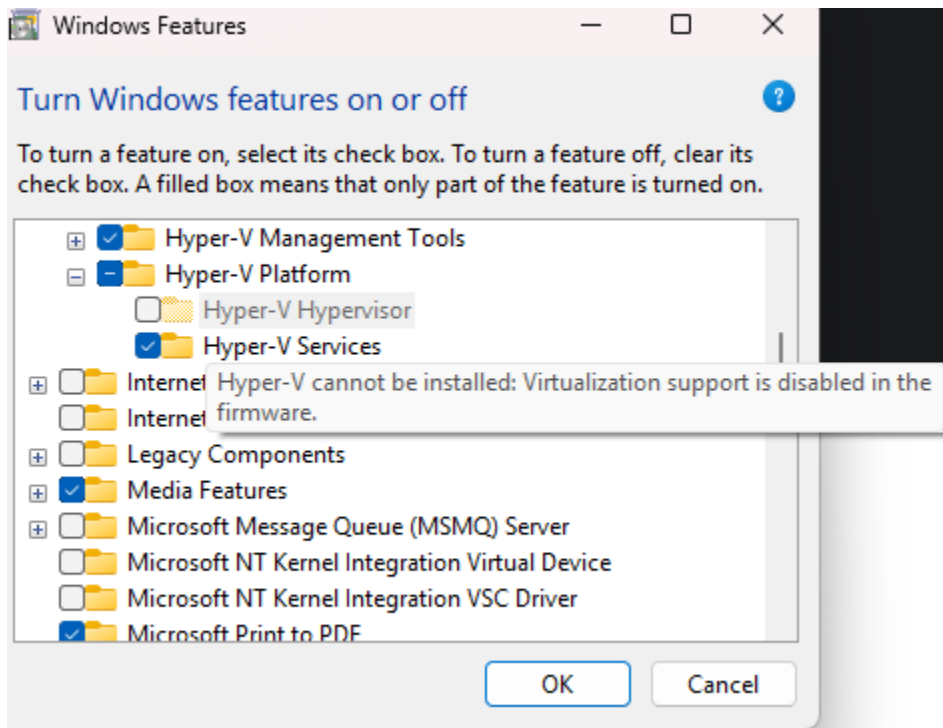

Flag 5 – Build Your Virtual Device

Objective: Create your first Android Emulator (AVD).

Screenshot:

Emulator successfully booted
(Hyper-V cannot be installed in this school PC)

🚩 Flag 6 – Forge Your Project

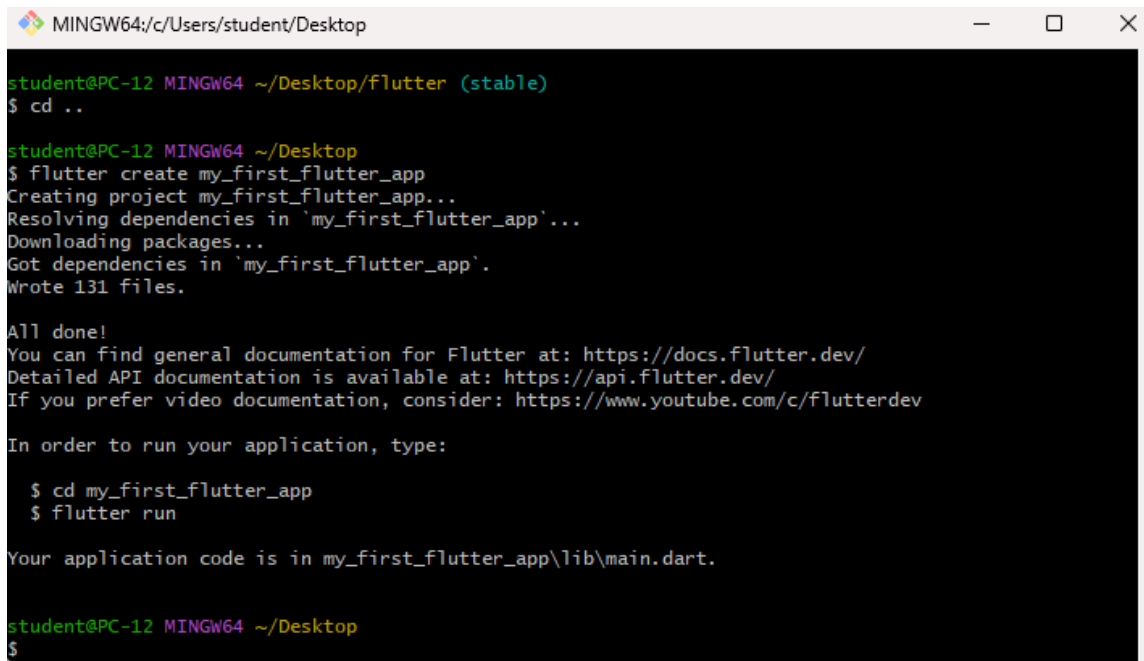

Objective: Create your first Flutter project.

Run:

```
flutter create my_first_flutter_app
```

Screenshot:

- Successful creation of project

```
MINGW64/c/Users/student/Desktop
student@PC-12 MINGW64 ~/Desktop/flutter (stable)
$ cd ..

student@PC-12 MINGW64 ~/Desktop
$ flutter create my_first_flutter_app
Creating project my_first_flutter_app...
Resolving dependencies in 'my_first_flutter_app'...
Downloading packages...
Got dependencies in 'my_first_flutter_app'.
Wrote 131 files.

All done!
You can find general documentation for Flutter at: https://docs.flutter.dev/
Detailed API documentation is available at: https://api.flutter.dev/
If you prefer video documentation, consider: https://www.youtube.com/c/flutterdev

In order to run your application, type:

  $ cd my_first_flutter_app
  $ flutter run

Your application code is in my_first_flutter_app\lib\main.dart.

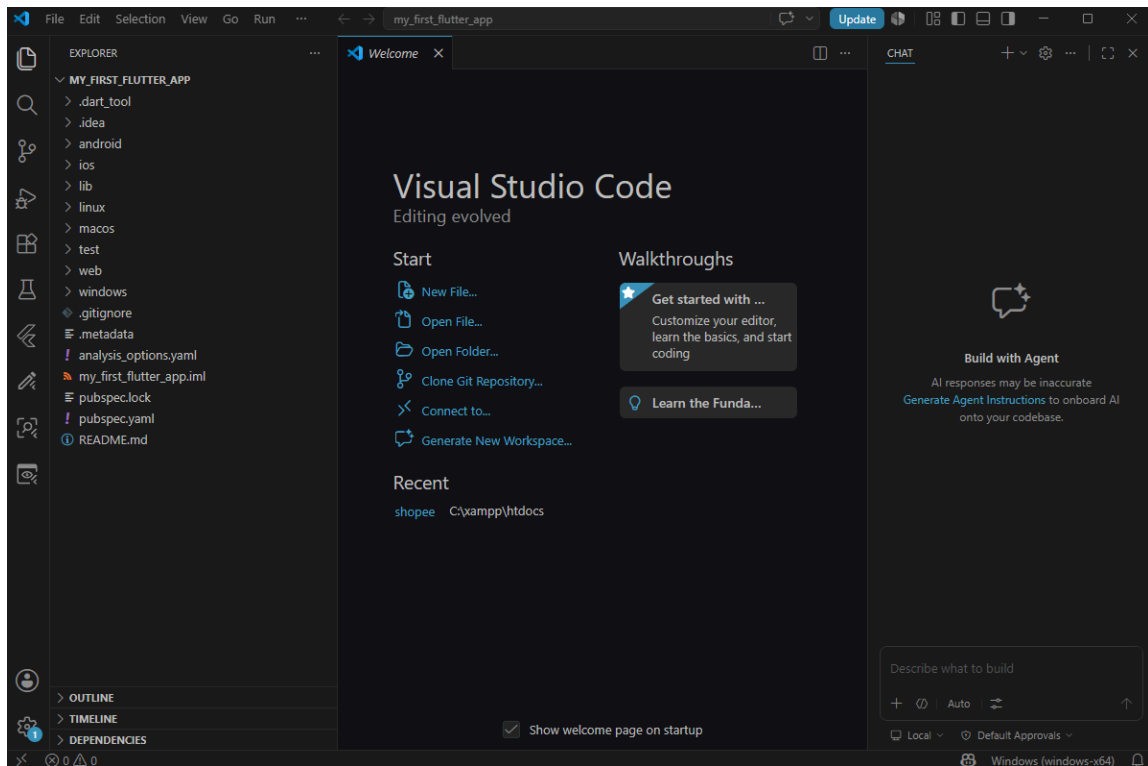

student@PC-12 MINGW64 ~/Desktop
$
```

Flag 7 – Unlock the Workspace

Objective: Open the project in VS Code.

Screenshot:

- Your project opened in VS Code

Flag 8 – Launch

Objective: Run your Flutter application.

Run:

flutter run

Screenshot:

- Terminal

```
MINGW64/c:/Users/student/Desktop/my_first_flutter_app

In order to run your application, type:

$ cd my_first_flutter_app
$ flutter run

Your application code is in my_first_flutter_app\lib\main.dart.

student@PC-12 MINGW64 ~/Desktop
$ flutter run
Error: No pubspec.yaml file found.
This command should be run from the root of your Flutter project.

student@PC-12 MINGW64 ~/Desktop
$ cd my_first_flutter_app

student@PC-12 MINGW64 ~/Desktop/my_first_flutter_app
$ flutter run

```

- Default Flutter app

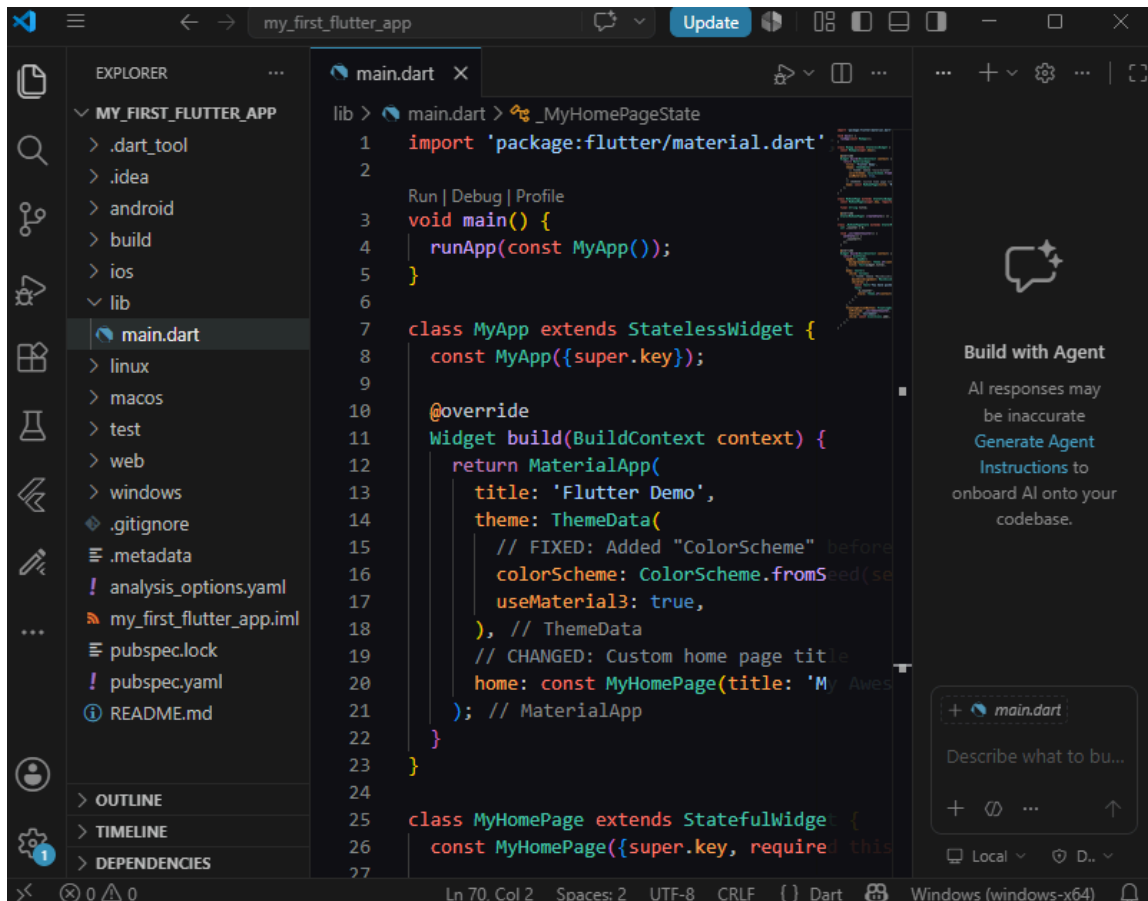

🚩 Flag 9 – Find the Entry Point

Figure out where the default Flutter page comes from.

Screenshot:

- The location of the file where the default page is from (the one showing on the emulator)

🚩 Flag 10 – Claim Your App

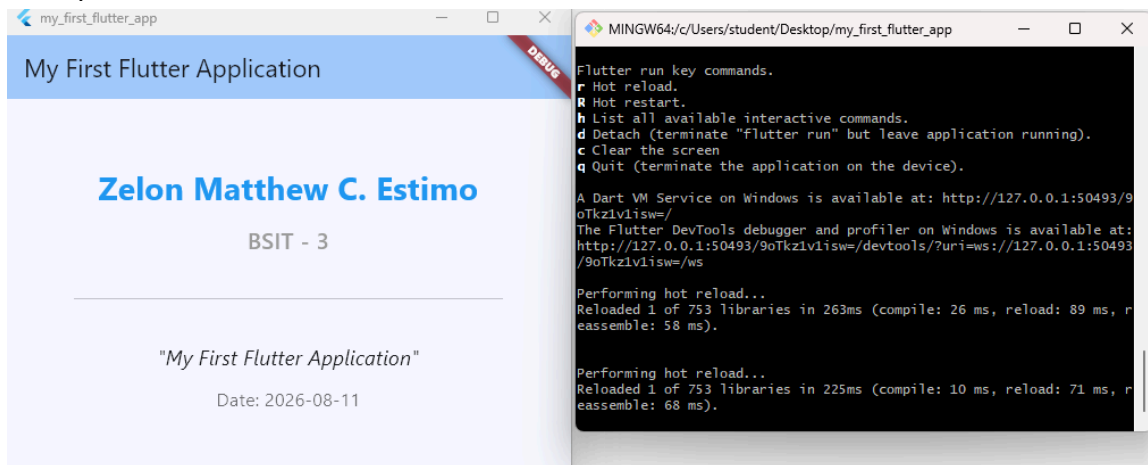

Replace the default screen with:

- Full Name
- Course & Section
- "My First Flutter Application"
- Today's Date

Screenshot:

- Your updated content of the code

- The updated UI

🚩 Flag 11 – Personalize It

Research and implement at least **three** visual changes.

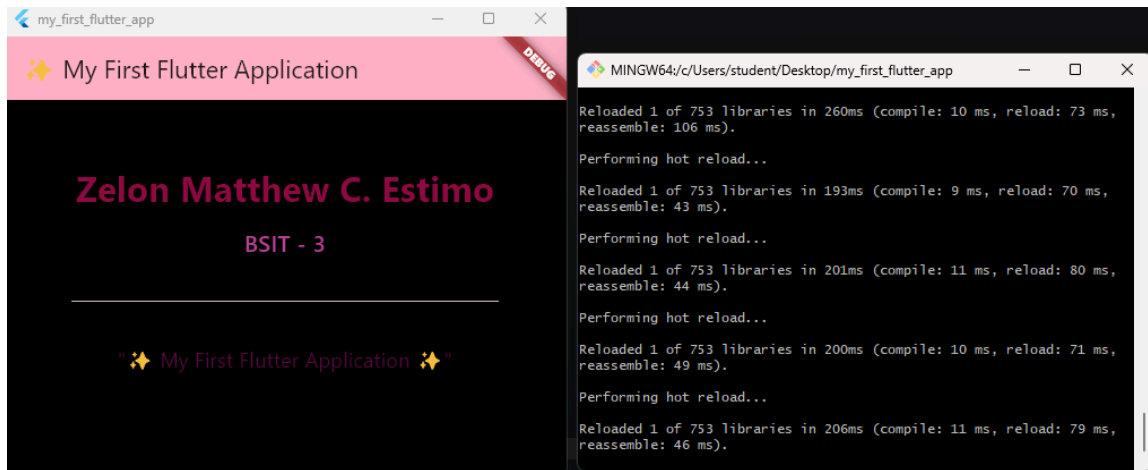

Examples:

- Change the background colour.
- Change the text colour.
- Centre the content.
- Increase font size.
- Add a border or rounded card.
- Change the font.
- Add an emoji or icon.

Screenshot:

- The code changed for personalizing

- The updated UI

🚩 Flag 12 – Add an Image

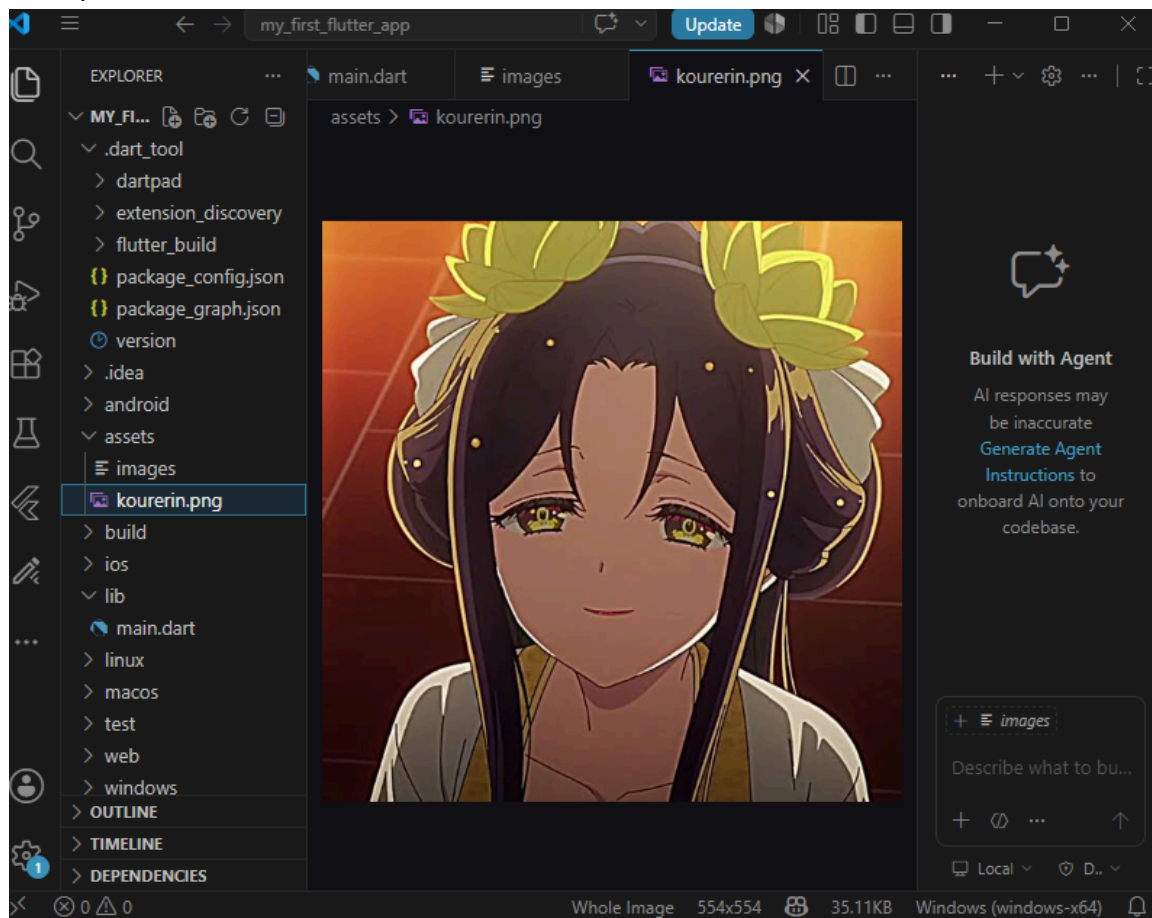

Research how to:

- Create an **assets** folder
- Register assets
- Display an image

Screenshot:

- The steps it took to add an image

- The updated UI

My First Flutter Application
